1. INTRODUCTION – BACKGROUND

1.1. Programme/Legal base

This call for proposals is published under Regulation (EU) No 1296/2013 of the European Parliament and of the Council of 11 December 2013 on a European Union Programme for Employment and Social Innovation ("EaSI")¹ and amending Decision No 283/2010/EU establishing a European Progress Microfinance Facility for employment and social inclusion.

The **European Programme for Employment and Social Innovation "EaSI" 2014-2020**² is a European-level financing instrument managed directly by the European Commission to contribute to the implementation of the Europe 2020 strategy, by providing financial support for the Union's objectives in terms of promoting a high level of quality and sustainable employment, guaranteeing adequate and decent social protection, combating social exclusion and poverty and improving working conditions.

The EaSI Programme shall, in all its axes and actions, aim to:

- (a) pay particular attention to vulnerable groups, such as young people;
- (b) promote equality between women and men;
- (c) combat discrimination based on sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation;
- (d) promote a high-level of quality and sustainable employment, guarantee adequate and decent social protection, combat long-term unemployment and fight against poverty and social exclusion.

Hence, in designing, implementing and reporting on the activity, beneficiaries must address the issues noted above and will be required to provide detail, in the final activity report on the steps and achievements made towards addressing those aims.

The EURES axis: promoting workers' geographical mobility and boosting employment opportunities

The EURES axis of the EaSI programme has the following general objectives:

- Transparency of job vacancies, applications and any related information for jobseekers, workers and employers;
- Development of services for the recruitment and placing of workers in employment;
- Cross-border partnerships.

The EURES axis may be used to finance actions to promote voluntary mobility of individuals in the Union, on a fair basis, and to remove mobility obstacles.

The EURES axis under the EaSI programme contributes to the implementation of the objectives of EURES, as laid down in the EURES Regulation³. Consequently, this call for proposals will support the development of the EURES network and its activities in line with the standards and procedures established in this Regulation.

³ Regulation (EU) No 2016/589 of the European Parliament and the Council of 13 April 2016 on a European network of employment services (EURES), workers' access to mobility services and the further integration of labour markets and amending Regulations (EU) No 492/2011 and (EU) No 1296/2013

The PROGRESS axis of EaSI helps the EU and its countries to improve policies in **three thematic sections**: (1) employment, in particular to fight youth unemployment; (2) social protection, social inclusion and the reduction and prevention of poverty; and (3) working conditions.

The PROGRESS axis has the following general objectives:

- Develop and disseminate high-quality comparative analytical knowledge.
- Facilitate effective and inclusive information-sharing, mutual learning and dialogue.
- Provide financial support to test social and labour market policy innovations.
- Provide organisations with financial support to increase their capacity to develop, promote and support the implementation of EU instruments and policies.

The 2019 annual work programme for grants and procurement for the European Union Programme for Employment and Social Innovation (EaSI) was published on 25 October 2018⁴.

1.2. Policy background

President Juncker stressed in his political guidelines that this Commission will promote labour mobility not only as a right to free movement of workers, but also as an economic opportunity - especially in the face of persistent vacancies and skills mismatches and globalised economy challenge.

Member States and business communities in Member States have an interest in implementing appropriate mechanisms to address labour mismatches not only where there are skills shortages at national level (which entail linking national vacancies with the right talent from abroad), but also to reduce qualification or skill mismatches (through acquisition of skills for workers to ensure productivity and globally competitive companies).

For companies aiming at investing in their human resources by offering a European experience to their employees, the organisation of short term assignments or exchanges for learning purposes and career development is complex from a legal point of view and administratively burdensome. However, big companies usually have the means to overcome these barriers. They use this kind of short term secondments with their subsidiaries or other companies to benefit from EU and international dimension and to offer acquisition of skills and experience elsewhere. For medium and small sizes enterprises (hereafter SMEs) in particular, it is very difficult. Yet SMEs form a major part of the EU economy. As a result, the EU is not fully exploiting its potential in terms of reinforcement of human capital through exchanges, sharing of knowledge and cross fertilization.

The current EU initiatives focus on supporting the exercise of the individual right to free movement of workers and students (EU citizens). The existing EU initiatives supporting geographical labour mobility and in certain cases covering the transnational cost of mobility focus on decisions by individuals to move during an educational cycle or a professional transition and not on company needs.

- Clarification and completion of articulation of rights (Enforcement Directive on free movement of workers making information and legal advice tools available for migrant workers; recognition of qualifications, supplementary pension's rights).

⁴ <https://ec.europa.eu/social/BlobServlet?docId=20272&langId=en>

- Labour market tools for jobseekers giving information on available job vacancies and associated services (EURES) and an interoperable labour market language (ESCO) aiming at improving job matching at EU level.
- Support mobility programmes for young students (Erasmus+), for entrepreneurs (Erasmus for entrepreneurs) or for young jobseekers (Your first EURES job).

There is also a regulatory framework for posting of workers, aiming at enabling companies to provide services by posting workers who are exercising a job for the same employer on the territory of another EU country.

To date there is no EU level scheme for people already in a job and wishing to experience cross border mobility in another company for a limited period of time while maintaining the contractual link with their employer⁵.

This type of mobility is initiated either by companies wishing to reinforce the international competences of their staff and establish cross-border contacts or by the employee(s) striving to develop new skills in the framework of lifelong learning (i.e. to learn from the experience of a partner company and broaden the personal set of skills and competences).

A European cross border mobility experience could be particularly beneficiary for staff and companies exposed to work at European level, and more generally in order to acquire specific skills available in another company in another Member State and to reinforce transversal skills.

Such initiative could also complement EURES capacity and to support the mobility experience not only for people who are ready to take up a job in another country but also for those who are already employed and search for a short term mobility experience while keeping their job in the home country.

2. OBJECTIVE(S) – PRIORITIES – TYPES OF ACTIONS - EXPECTED RESULTS

2.1. Objectives – Priorities

The general objective of the call is to support short term cross-border secondments for employees, managers and/or (co-) owners, in particular from small and medium companies. These secondments shall provide opportunities to develop skills and capacities in host companies ('learning objective'), as well as for companies to enhance their business either by establishing new contacts abroad, or by strengthening their already existing partnerships ('international business opportunity for SME').

Building on the successful pilot scheme "MobiliseSME" implemented between 2015 and 2017, this call for proposals aims at:

- (1) enhancing a proper identification of the sending and hosting companies, including targeting sectors with a high international or cross-border activities and employees, managers and/or (co-)owners ready for secondment,
- (2) further developing of the outreach and matching strategy, and
- (3) enhancing mechanisms of co-operation and dissemination, engaging the employer organisations as facilitators, participating companies and employees and

⁵ Some initiatives based on temporary assignment in a company exist at the national level, such as International volunteers in enterprise in France (Volontaires internationaux en entreprise (VIE))

(4) developing rules and procedures to make secondments beneficial for all parties involved.

The specific objective of this action is to give financial support to around 250 professionals identified for an exchange or a limited stay in another company.

Hence, in designing, implementing and reporting on the activity, beneficiaries must address the issues noted above and will be required to provide detail, in the final activity report on the steps and achievements made towards addressing those aims.

2.2. Type of actions

The name of the action proposal must be (mandatory):

Mobility Exchange Programme for SME Staff (MobiliseSME)

The Commission aims to support action(s) of duration of 24 months consisting of the following components:

- a) **Consultations, surveys and market research** to enhance a proper identification of the needs and obstacles on both sides, of the sending and hosting companies, including targeting sectors with a high international or cross-border activities and employees, managers and/or (co-)owners ready for secondments.
- b) **Development of the outreach and matching strategy**, through enhancing mechanisms of co-operation and dissemination, engaging the employer organisations as facilitators, participating companies and employees. The action shall be based on support by associations representing enterprises (the applicants). Their task shall be to establish the infrastructure, roles and responsibilities of different participating parties and to help overcome the obstacle for the participating companies as defined above throughout the whole lifespan of the secondments process.
- c) **Developing rules and procedures to make secondments beneficial for all parties involved.** This may include drafting a brief plan for the secondment, summarising the motivations of both sides, the learning objectives and clear description of the conditions and requirements. The secondments shall be built around a learning plan to be agreed on by the sender, host and employer before the exchange. It is foreseen that the seconded worker would reinforce the team of the hosting company and contribute to the daily work.

The action shall also elaborate on **the provision of administrative and financial support** to all actors as follows:

- The action is to be based on support by associations representing enterprises (the applicants). Their task shall be to establish the infrastructure, roles and responsibilities of different participating parties and to help overcome the obstacle for the participating companies as defined above throughout the whole lifespan of the secondments process.
- The duration of the secondment of the individual workers shall be between one to six months.
- The secondment will be partially supported by a financial contribution from the Union grant. The Union grant can cover travel costs related to taking up duties in

the host company or eventually for an interview if relevant, a part of expatriation costs and of integration costs, and where relevant, also a short language training. Based on the assumption that both the sending and hosting company benefit from this temporary assignment, the costs covering wages, social security including health insurance contributions and expatriation costs of the employee throughout his secondment shall be shared between both companies.

- The applicants shall propose a feasible design of the distribution of costs during the time of secondment between the companies.

In this framework, the applicants shall propose and test the modalities and potential design of an efficient and effective administrative, legal and finance support model.

Following the internal evaluation of the project, the applicants shall formulate the lessons learned, conclusions and recommendations for the future.

The action shall include awareness and dissemination measures, involving the creation of concrete tools to share and diffuse knowledge (website, leaflets, video-based products, conferences, seminars, etc.).

2.3. Expected outputs/results

Applicants are free to choose the methods, tools, etc. to implement the action, provided they comply with the Financial Guidelines (Annex I). The overall objective of the 2019 call is to grant 1 to 2 projects to ensure around between 250 and 300 secondments for mobile candidates in the EU EFTA/EEA countries, other than their country of residence.

Proposals submitted under this call shall clearly indicate the expected outcome in the area of secondments, integration services and individual support and/or training measures. This information will be included in the "*Description of the action*" (SWIM application).

2.4. Monitoring

The beneficiaries of the projects shall monitor the action and make data available.

The European Commission will monitor the action for **the EaSI programme** through the information provided in a specific Annex to the Grant Agreement. The reporting template is published on the respective call page *on the EaSI call page* <https://ec.europa.eu/social/main.jsp?catId=629&langId=en>.

The Commission, with the support of an external contractor, will monitor regularly the EaSI Programme. Therefore, beneficiaries will have to transmit qualitative and quantitative monitoring data on the results of the activities. These will include the extent to which the principles of equality between women and men has been applied, as well as how anti-discrimination considerations, including accessibility issues, have been addressed through the activities. Related templates are attached or will be provided.

In setting up the action, beneficiaries must foresee the necessary funding for monitoring and reporting to the Commission. For events, it is important to get from participants their specific consent by a statement or by a clear affirmative action for processing and transferring their personal data including to an external contractor responsible for the monitoring of the EaSI programme. Beneficiaries shall therefore inform all participants via a Privacy Statement that is not only published online, but is also provided individually to each participant (e.g. as part of the email where the

beneficiary/contractor first contacts the individual concerned) that the Commission/external contractor would be processing their personal data. Beneficiaries shall be able to demonstrate that consent was obtained subject to conditions of Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data (i.e. keep a record that shows how the consent was obtained and whether it was valid) and Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data.

The Commission will follow the implementation of the MobiliseSME scheme and promote networking among the project beneficiaries. To that end, maximum four meetings will be held with the Commission in Brussels or another Member State (one meeting every six months). The purpose is to provide guidance and take stock of progress made.

Lead applicants may also be invited to other ad hoc meetings or events during the lifetime of the action. These venues can be an opportunity for raising awareness to the action and disseminating information. The estimated budget shall include provisions for participation in the monitoring and reporting activities and meetings above as well as in, at least, two EU level events.

A model privacy statement is available on the Europa website of the EaSI programme <https://ec.europa.eu/social/main.jsp?catId=1081&langId=en&furtherCalls=yes&callType=2>.

The Commission reserves the right to increase the amount of the funds and distribute them to proposals admitted in the reserve list, if available. This top-up is limited to 20% of the initial budget of the call.

4.2. Co-financing rate

If a co-applicant is considered not to be eligible, this organisation will be removed from the consortium and the eligibility of the modified consortium will be re-evaluated. In addition, the costs that are allocated to a non-eligible co-applicant will be removed from the budget. If the modified consortium is still eligible, the application will be evaluated on that basis. If the application is accepted for funding, the work plan will have to be adapted as appropriate.

<https://webgate.ec.europa.eu/swim/external/displayWelcome.do>.

7.2. Rejection from the call for proposals

The Commission shall not award a grant to an applicant who:

- a) is in an exclusion situation established in accordance with Article 136; or
- b) has misrepresented the information required as a condition for participating in the procedure or has failed to supply this information; or
- c) was previously involved in the preparation of calls for proposals documents used in the award procedure where this entails breach of the principle of equality of treatment including a distortion of competition that cannot be remedied otherwise.

The same exclusion criteria apply to any affiliated entities which must, therefore, be included in the above-mentioned declaration(s).

Administrative sanctions may be imposed on applicants, or affiliated entities where applicable, who are guilty of misrepresentation if any of the declarations or information provided as a condition for participating in this procedure prove to be false.

8. SELECTION CRITERIA

The lead applicant and each co-applicant must have the financial and operational capacity to complete the activities for which funding is requested. Only organisations with the necessary financial and operational capacity may be considered for a grant.

8.1. Financial capacity

The lead applicant and each co-applicant must have access to solid and adequate funding to maintain their activities for the period of the action and to help finance it as necessary.

The verification of financial capacity will NOT apply to public bodies.

The lead applicant's and each co-applicant's financial capacity will be assessed on the basis of the following supporting documents to be submitted with the application:

- Declaration on honour (including financial capacity to carry out the activity) (see section 14, checklist);
- Annual balance sheets and profit and loss accounts for the last financial year available (see section 14, checklist);
- Summary balance sheet and profit and loss accounts using the template provided in SWIM and signed by the legal representative (see section 14, checklist).

- information on the financial capacity provided by the applicant and in particular the information provided in section "Financial Resources" of the SWIM application form
- For grants exceeding *EUR 750 000* per beneficiary or affiliated entity, an audit report produced by an approved external auditor certifying the accounts for the last two financial years available where such an audit report is available or whenever a statutory audit report is required by Union or national law. If the audit report is not available AND a statutory report is not required by law, a self-declaration signed by the applicant's authorized representative certifying the validity of its accounts for the last financial year available. (see section 14, checklist).

In the event of an application grouping several applicants (consortium), the above thresholds apply to each applicant, not to the consortium as a whole.

The ratio between the total assets in the applicant's (lead and co-applicant(s)) balance sheet and the total budget of the project or the part of the project budget for which that organisation is responsible for, according to the budget in the application form would be considered strong if it is equal or greater than 0.70.

If the applicant or lead applicant is considered not to have a strong financial capacity, the application as a whole will be rejected.

If a co-applicant or several co-applicants are considered not to have a strong financial capacity, the Commission will also take into account any other relevant information on the financial capacity provided by the applicant and in particular the information provided in section "Financial Resources" of the SWIM application form.

After this further analysis, the Commission will take various proportional measures depending on the level of weaknesses identified, which may be to:

1. reject the whole application;
2. remove the co-applicant from the consortium and re-evaluate the proposal without this co-applicant;
3. propose a grant agreement without pre-financing;
4. propose a grant agreement with a pre-financing paid in several instalments;
5. propose a grant agreement with pre-financing payment(s) covered by (a) financial guarantee(s);
6. propose a grant agreement with joint financial liability of 2 or more applicants/co-applicants;
7. propose a grant agreement with a mix of the measures 4, 5 and 6.

In the case of mitigating measure 5, the Commission may request a pre-financing guarantee for up to the same amount as the pre-financing in order to limit the financial risks linked to the pre-financing payment.

The financial guarantee, in euros, shall be provided by an approved bank or financial institution established in one of the EU Member States. When the beneficiary is established in a third country, the Commission may agree that a bank or financial institution established in that third country may provide the guarantee if it considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

The guarantee shall be released as the pre-financing is cleared against the payment of the balance, in accordance with the conditions laid down in the grant agreement.

8.2. Operational capacity

Applicants (lead applicant and each co-applicants) must have the professional competencies as well as appropriate qualifications necessary to complete the proposed work programme. In particular, applicants must have:

- a track record of competence and experience in the field of the type of action proposed
- the necessary operational resources (technical, management) to carry out the action.

The operational capacity of the applicant and co-applicant(s) to complete the proposed action must be confirmed by the submission of the following supporting documents:

- *A list of the main project(s) relating to the subject of the call carried out in the last three years, with minimum one successfully implemented project with at least two Member States involved. (see section 14, checklist);*
- The CVs of the proposed project co-ordinator and of the persons who will perform the main tasks showing all their relevant professional experience. The project co-ordinator must have minimum five years of professional experience in a cross-border project. (see section 14, checklist);
- Declaration on honour signed by the legal representative (including operational capacity to carry out the activity) (see section 14, checklist).

If the lead applicant is considered not to have the required operational capacity, the application as a whole will be rejected. If a co-applicant is considered not to have the required operational capacity, this co-applicant will be removed from the consortium and the application will be evaluated without this co-applicant¹³. In addition, the costs that are allocated to the non-selected co-applicant will be removed from the granted budget. If the application is selected, the work programme may have to be slightly adjusted.

Only proposals which comply with the requirements of the above operational selection criteria will be considered for further evaluation.

9. AWARD CRITERIA

The proposals which fulfil the eligibility and operational selection criteria will be assessed according to the following award criteria:

A. Relevance of the proposal to the call (max. 25 points)

- The degree to which the proposal meets the priorities, objectives and action components identified in section 2.2 of the call.

The SWIM application indicates in each section where SWIM templates shall be used as well as which and where free format documents can be uploaded electronically.

Copies of the signed originals will be accepted for most of the documents to be submitted by the co-applicants. However, the lead applicant shall keep the original signed versions for its records, because **originals** may have to be submitted for certain documents at a later stage. **If the lead applicant fails to submit these original documents within the deadline given by the Commission, the proposal may be rejected for lack of administrative compliance.**
